**Tetsuya Nishio : Sudoku Plus, Volume One** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sudoku Plus, Volume One:

1 of 1 people found the following review helpful. loved itBy mustardI had volume 4 and sought out this author because I liked how the puzzles are made. There is always a trick, and if I can be patient, I can usually figure it out. A challenge for me to be patient, and a great feeling when I crack the code.6 of 8 people found the following review helpful. MAJOR DISAPPOINTMENTBy Censor ThisThis pocket-sized volume is a major disappointment for fans of Tetsuya Nishio's previous volumes, like Sudoku Hell and Extreme Sudoku. No hard puzzles here -- the difficulty level goes only up to barely medium. No exciting new variations, either. Just a few o'ekaki puzzles, in print so small that the major challenge is reading the numbers. There are several volumes scheduled to come out in this series in the next few

months, but I do not plan to buy any of them.

The puzzles in Sudoku Plus are conceived by Japan's greatest puzzle mind, Tetsuya Nishio, who takes extreme pleasure in handcreating his puzzles. His latest series, Sudoku Plus provides 101 Sudoku puzzles plus a handful of Sudoku-inspired variant puzzles! Now, after readers are through with their Sudoku puzzles, they can test out a whole new line of Nishio-created torture! The continued success of Sudoku means that there's a new breed of Sudoku puzzler: experienced, resourceful, and ready for puzzles that transcend the rote specimens one encounters in the daily newspaper, online, or in mass market magazines. It is this sector of puzzle solvers that grows every day, and the sector for which Vertical has conceived its new line of Sudoku books.

"Tetsuya Nishio is the undisputed grand puzzle master of Sudoku: a bespectacled fiend from the darkest suburbs of Tokyo who spends his every waking hour devising abominable new ways to torture our brain cells. His only weapon is logic, but, in his own words, it is a knife that kills. His commitment to deviousness is absolute." The Times (U.K.) "Tetsuya Nishio has one of the world's most creative puzzle-making minds. I'm a big fan." --Will Shortz, Crossword Editor, New York Times; Puzzlemaster, NPR. About the Author According to The Times of London, "Tetsuya Nishio is the undisputed grand 'puzzle master' of Sudoku: a bespectacled fiend from the darkest suburbs of Tokyo who spends his every waking hour devising abominable new ways to torture our brain cells. His only weapon is logic, but, in his own words, 'It is a knife that kills.' His commitment to deviousness is absolute." Nishio is a world champion of number-logic puzzles. He reigns as the single-most important figure in Sudoku in Japan. He invented O'Ekaki (Paint by Sudoku) puzzles in the late 1980s, which are steadily becoming as popular as Sudoku. He is also the chairman of the Japan Puzzle Team at the annual World Puzzle Championships. At the 2007 World Puzzle Championship, Nishio placed fourth amongst the greatest Sudoku puzzlers in the world!
