**Joe Kattaker : Sudoku Puzzle 7: 200 Killer Sudoku** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sudoku Puzzle 7: 200 Killer Sudoku:

It would have been much better to have a bolder line around the 9 cell ...By Caliente SoulTwo reasons for losing a star each.One: the puzzles are inconsistent and the difficulty seems to vary quite a bit. You can rip through one, and the very next puzzle, you will have a difficult time even getting started.Two: For me, the lines differentiating the 9 cell grids and the lines surrounding each number are far to close to

the same thickness. It would have been much better to have a bolder line around the 9 cell grids so that it was easier to tell when a number crossed between cells. Otherwise, it's just a book of Killer Sudoku. It will still exercise your brain (or make people yell, "Are you still in the bathroom?!") 0 of 0 people found the following review helpful. A good buy. By DbwI agree with the previous review to a degree. However I found these puzzles to be in that nice zone of challenging without being ridiculous. A lot of entertainment for the buck.
