0 of 0 people found the following review helpful. Great puzzlesBy Deborah MorganThe puzzles are great. The puzzles were the level of difficulty described. Was purchased as a gift. Very well received.6 of 6 people found the following review helpful. Hard and challenging. For me it's just right!By SP Magazine Book ReviewsIn many other books I found the small size of the numbers in the already filled in squares is annoying, if you are used to a different format. But in this is book it's just right!Many of the puzzles were a challenge to me which is why I loved it so much! I thought this book was perfect. Hard and challenging, but not impossible.Consistent in difficulty, easy to read, a quality paperback book format, and in a small enough size to carry with you on the subway or while in a waiting room.0 of 0 people found the following review helpful. don't like the layout - too much white space -hard to ...By barbara
