So far the puzzles have been fun though not too challenging. Only on page 22 and they are supposed to get more difficult as you go. I also really like the quality of the paper. Easy to write in pencil and erase without messing up the paper. 8 of 8 people found the following review helpful. Just what I needed! By Ellie This little spiral book was just what I needed to replace my older spiral books of sudoku. The puzzles are pleasingly challenging but not frustratingly impossible I really like that! I do wish there were more spiral books of sudoku like

this one. It's enjoyable to play games online, or on my phone; however, nothing quite takes the place of having a book in your hands to work a puzzle once in a while! very relaxing!7 of 7 people found the following review helpful.
Essential for all Sudoku addicts!!By RobDaileyGreat puzzles. Once you use the a spiral Sudoku book, you'll never want yo go back to the regular books, you'll NEVER want to go back to newsprint puzzles!
