Elizabeth Hollinger : Suikoden II: Prima's Official Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Suikoden II: Prima's Official Strategy Guide:

0 of 0 people found the following review helpful. A workable but incomplete guideBy Kalloway AshtonThis is a workable guide, but it's not necessary to enjoy and complete the game. Many of the FAQs available online are better organized and offer clearer instructions for character recruitment and progression (as some sections of this book basically tell you to figure it out yourself). Unlike some of the later Suikoden guides, this one doesn't feature much in the way of character art (I enjoy guide books that double as art books.) and the backgrounds are dark and cluttered, which can make the text difficult to read. Also, it's obvious this guide was written midway through localization as some characters have different spellings to their names, which is a minor quibble but something to note.A cleaner and more complete presentation would have done wonders for the book, but it's not a bad addition for a Suikoden collector.0 of 0 people found the following review helpful. good strategy guideBy BrandonGood condition0 of 0
