music because I had heard the suite. A very European jazz feel. The order was delivered promptly and now working
on playing it. The CD is very helpful. If only practice time needed were as speedy as delivery time. 0 of 0 people found
the following review helpful. Great piece, fun to play. By miyazawagirI FANTASTIC piece, really nice to have all the
different parts. Fun to play and the cd accompaniment is easy to work with. I played it with my cousin (flute and cello

duet) and even that sounded good. I only wish Bolling gave more notes on how he wanted to flute part played. On the recording with Rampal, he hardly swings anything and that was PERFORMED with the composer. other people interpret it differently but I guess that's the joy of music, more than one way to skin a cat...0 of 0 people found the following review helpful.
