From Alfred Music : Suite from Water Music before purchasing it in order to gauge whether or not it would be worth my time, and all praised Suite from Water Music:

1 of 1 people found the following review helpful. Beautiful Organ arrangement for a beautiful chamber piece By Mama of 2 Princesses I found this arrangement to be absolutely great. It is full and rich and wonderful to play. Every voice from the original composition is represented and in my opinion the end-result sounds just like the chamber ensemble it was originally composed for.

Six movements from Handel's famous, elegant orchestral work are arranged here for the organ, complete with registration suggestions. These will be very playable for the intermediate level artist who has good pedal skills, on both small and large instruments. The comb binding creates a lay-flat book that is perfect for study and performance. Contains: I. Allegro Vivace * II. Air * III. Hornpipe * IV. Minuet * V. Allegretto Giocoso * VI. Allegro Maestoso.
